

Chairman's Thoughts

The next Society Meeting will be at the track on the 17th June for a BBQ as we will be entertaining our friends from G0G, G1MRA & MERG the track will be open for running that evening. I will be lighting up the BBQ once again from 7pm. Hope for a fine dry evening for the event.

Bob has completed most of the worn rail replacement work at the Station end of the track and is now going down to the far end curve to replace some of the rail there. Thanks to those who have helped with this work and Mike Clay for modifying the fish plates as in the photo.

I have taken some before and after photos of the work being carried out by our lady gardeners.

Thanks, Pippa and Sheila, it does look very good with all the hard work you have put into brightening up our gardens.

I received the following e-mail from a Lady:
I have a 5" Gauge battery model diesel chassis and rather crude body to get rid of prior to a house move. The chassis comprises wheels, gears, motor.

Rather than take it down the tip I wondered if it might be of interest to yourselves? I am giving it away.

In addition I have the components, i.e. aluminium rail, sleepers (plastic) and chairs to make up 5 yards of track. I am asking £50.00 for this (value about £200.00).

If any Member is interested in this, please e-mail me david@littledownrailway.co.uk and I will pass on the contact details.
